

# FME EXTENSIONS

## EXTENSION FOR MAGENTO 2

### USER GUIDE

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of **Product Feed** Extension for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

## USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

## HOW TO CONFIGURE THE EXTENSION

At the back end, go to **FME Extensions > Configurations**. Here you will find the following settings:

### GENERAL SETTINGS

- **Enable/Disable the Product Feed:** Options to Enable or Disable the product feed module
- **Upload Google Category File:** Upload a Google category file (**Note:** Upload only CSV file type)

### General Settings

Enable / Disable the Product Feed  
[store view]

Enable ▼

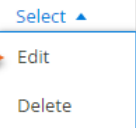

Upload Google Category File  
[website]

Choose File No file chosen

## HOW TO CREATE PRODUCT FEEDS

At the backend, go to **FME EXTENSIONS > Manage Feeds**. Here you will find all the product feeds in a grid. You can **Edit** any feed, download any previously created feed by clicking on the **Copy** button or click on the **Add New Feed** button to continue.

Product Feed										
<input type="checkbox"/>	Feed ID	Name	Store View	Status	Type	Execution Mode	Latest File	Created	Action	
<input type="checkbox"/>	13	ahmed	All Store Views	Enable	CSV	Manual	ahmed.csv 	May 6, 2020		
<input type="checkbox"/>	12	facebook	All Store Views	Enable	CSV	Manual	facebook.csv 	Apr 30, 2020		
<input type="checkbox"/>	11	test	All Store Views	Enable	CSV	Manual	test.csv 	Nov 26, 2019	Select ▼	

Here you will have to provide the following information:

### GENERAL INFORMATION

- **Name:** Enter a name for the product feed
- **Status:** Options to Enable or Disable the product feed
- **Store View:** Choose the store views on which you want to enable the product feed
- **File Name:** Enter a name for the file
- **File URL:** Provide URL of the file e.g. "/fme\_productfeed/" or "/" for the base path  
(Note: path must be writeable)
- **Exclude Disabled Products:** Choose 'Yes' or 'No' to Include or Exclude the disabled products from the product feed
- **Exclude Out of Stock Products:** Choose 'Yes' or 'No' to Include or Exclude the Out of Stock products from the product feed
- **Exclude Not Visible Products:** Choose 'Yes' or 'No' to Include or Exclude the 'Not Visible Products' from the product feed

## TEMPLATES

- **File Type:** Choose the type of template file, if you choose 'CSV' then following fields will appear at your screen:
  - **CSV**
    - **Default Template:** Our extension is equipped with custom-made CSV templates to help you create product feed according to the shopping platform you aim to submit for. You can create your own custom templates. Available default CSV templates are:
      - **Facebook CSV**
      - **eBay CSV**
      - **Bing CSV**
      - **Shopping CSV**

(**Note:** You can amend the values of the product attributes for each feed to decide which products to show on a shopping platform. Customize the fields map accordingly)

## CATEGORY MAPPING

Kindly check [Google Taxonomy](#) and rename your categories to match the corresponding Google categories according to the requirements.

(**Note:** You should define the full path of the category exactly as it is in the taxonomy. For instance, if you are trying to associate your '**Shorts**' category with Google, you might rename it to "**Apparel & Accessories > Clothing > Shorts**")

Category Mapping	
Default Category	<input type="text"/>
Gear	<input type="text"/>
Gear > Bags	<input type="text"/>
Gear > Fitness Equipment	<input type="text"/>
Gear > Watches	<input type="text"/>
Collections > New Luma Yoga Collection	<input type="text"/>
Training	<input type="text"/>
Training > Video Download	<input type="text"/>
Men	<input type="text"/>
Men > Tops	<input type="text"/>
Men > Bottoms	<input type="text"/>
Men > Tops > Jackets	<input type="text"/>
Men > Tops > Hoodies & Sweatshirts	<input type="text"/>
Men > Tops > Tees	<input type="text"/>

## GOOGLE ANALYTICS

Configure Google Analytics to monitor your web store traffic coming through the shopping platforms.

- **Campaign Source:** Use **utm\_source** to identify a search engine, newsletter name, or other sources **e.g.** Google
- **Campaign Medium:** Use **utm\_medium** to identify a medium such as an email or cost-per-click **e.g.** CPC
- **Campaign Name:** It is used for keyword analysis. Use **utm\_campaign** to identify a specific product promotion or strategic campaign **e.g.** spring\_sale
- **Campaign Term:** It is used for paid search. Use **utm\_term** to note the keywords for this ad **e.g.** running+shoes
- **Campaign Content:** It is used for A/B testing and content-targeted ads. Use **utm\_content** to differentiate ads or links that point to the same URL **e.g.** logo link or text link
