1.About the Extension

If you want to create a wishlist on your **category or product page**, Magento 2 Smart Wishlist extension is a useful tool for this purpose. It allows you to **create a smart wishlist button for any category or product page**. This extension deals with helping your customer organize selected products and add them to a wishlist on your web store. Increase your store revenue by enabling your users to create wishlists on your e-Commerce website.

You as a store owner can create a **sign-in pop-up window** that can be used by your customer to easily sign in and add their products to the wishlist. Also, the customer will easily log in to his account via popup and add his favorite products to their wishlist. You can also enable/ disable the wishlist option on the **checkout cart page, catalog search, and recently viewed products**.

2.Feature List

- Enable Wishlist on Specific Categories
- Enable on Checkout Cart
- Enable on a CMS Page
- Enable on Catalog Search
- Enable on Recently Viewed Products
- Enable Recaptcha

2.1 Enable Wishlist on Specific Categories

With this extension, you can enable the specific categories to see the wishlist option on the category page.

2.2 Enable on Checkout Cart

With the smart wishlist extension, you can enable/disable the wishlist option on the checkout cart page.

2.3 Enable on a CMS Page

This extension will help the admin to enable the wishlist option on any cms page.

2.4 Enable on Catalog Search

This extension helps you to enable the wishlist option on a catalog search page.

2.5 Enable on Recently Viewed Products

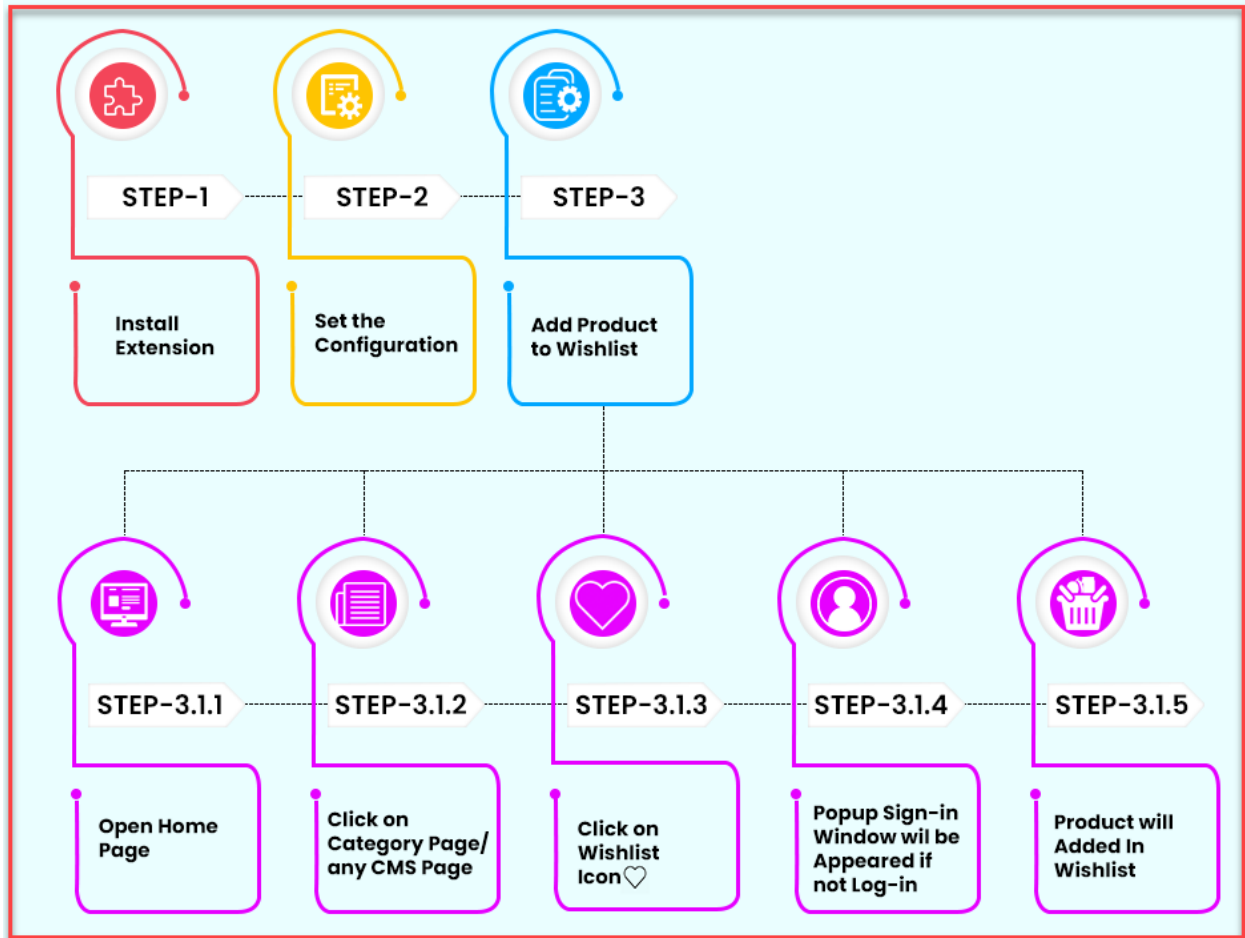

In this extension, you can enable or disable the wishlist option on recently viewed products.

2.6 Enable Recaptcha

You can enable the ReCaptcha option of the wishlist extension.

3.Steps to Follow

4. Extension Details

4.1 Configuration

At the backend, go to **FME EXTENSIONS** and click the smart wishlist Configurations. Here you can find the extension configurations.

4.1.1 Enable Module

This will Enable/Disable the smart wishlist extension

The screenshot shows the 'FME EXTENTIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section contains a 'Module Enable' dropdown menu with the value 'Yes' selected. The dropdown is labeled '[global]'.

4.1.2 Select Category

You can replace the default wishlist icon with the smart wishlist icon on category pages. See section 4.2.1 for frontend result.

The screenshot shows the 'FME EXTENTIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section contains a 'Select Category' dropdown menu labeled '[store view]'. The dropdown is open, showing a list of categories: 'Default Category', 'Gear', 'Gear -> Bags', 'Gear -> Fitness Equipment', 'Gear -> Watches', 'Men', and 'Men -> Tops'. 'Gear -> Bags' is currently selected.

4.1.3 Enable on Checkout Cart

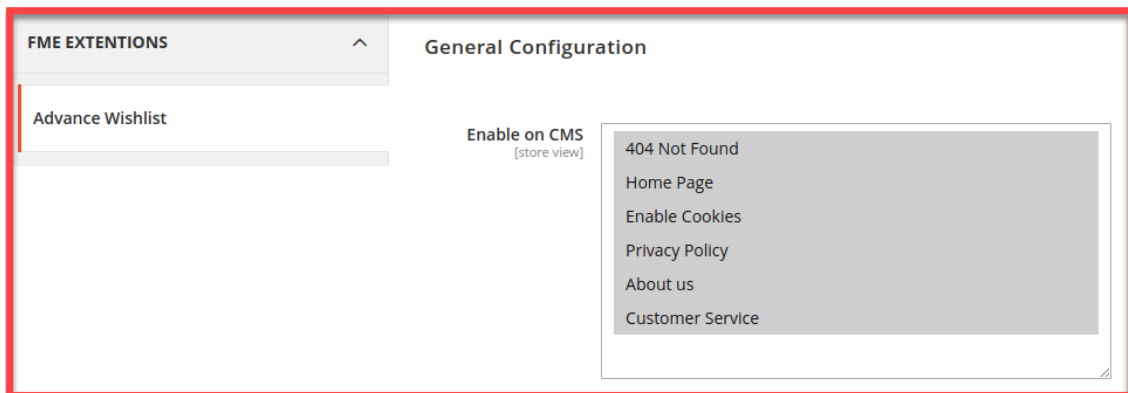

If there are any products attached to the **Cart page**, each product will have the smart wishlist icon on them. See section 4.2.3 for the frontend result.

The screenshot shows the 'FME EXTENTIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section contains an 'Enable on Checkout Cart' dropdown menu labeled '[store view]' with the value 'Yes' selected.

4.1.4 Enable on CMS Page

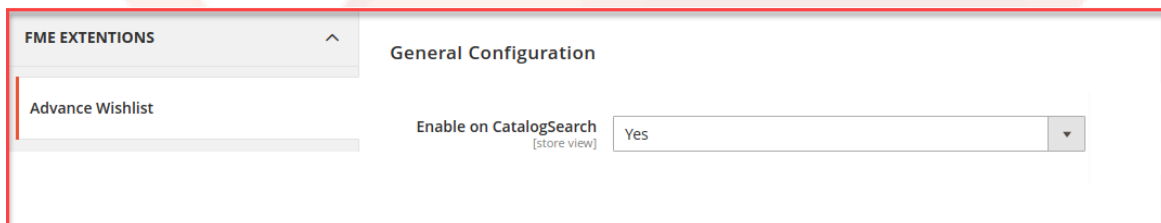

If you have added a product or block to any CMS page, the smart wishlist icon will appear with each product. See section 4.2.2

The screenshot shows the 'FME EXTENSIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section has 'Enable on CMS' set to '[store view]'. A list of CMS pages is displayed on the right, including '404 Not Found', 'Home Page', 'Enable Cookies', 'Privacy Policy', 'About us', and 'Customer Service'.

4.1.5 Enable on Catalog Search

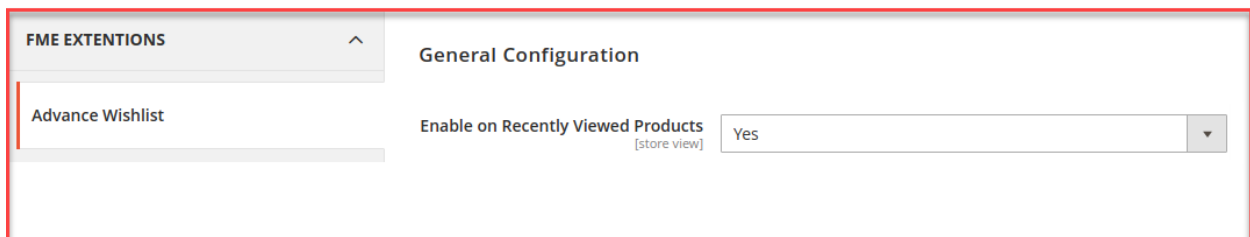

You can enable the wishlist option on the catalog search page.

The screenshot shows the 'FME EXTENSIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section has 'Enable on CatalogSearch' set to '[store view]' with a dropdown menu showing 'Yes'.

4.1.6 Enable on Recently Viewed Products

You can enable the wishlist option on the recently viewed products.

The screenshot shows the 'FME EXTENSIONS' sidebar with 'Advance Wishlist' selected. The 'General Configuration' section has 'Enable on Recently Viewed Products' set to '[store view]' with a dropdown menu showing 'Yes'.

4.1.7 Enable ReCaptcha

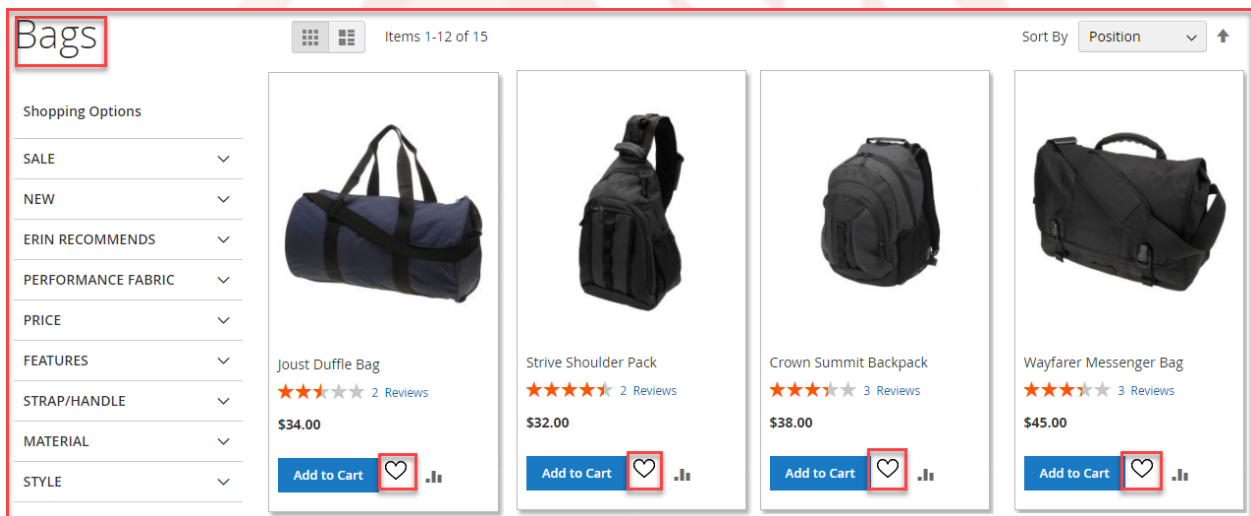

You can enable the ReCaptcha option on the wishlist page

The screenshot shows the 'General Configuration' page for FME Extensions. On the left, there is a sidebar with 'FME EXTENSIONS' and 'Advance Wishlist'. The main content area is titled 'ReCaptcha'. At the bottom, there is a section 'Enable ReCaptcha [global]' with a dropdown menu currently set to 'No'.

4.2 Store Frontend

4.2.1 Category Page

Visitors can open any category page on the front end and add their favorite products to the wishlist.

4.2.2 CMS Page

Products or block attached to the CMS page will have the smart wishlist icon.
