1. About Extension

Magento 2 Lookbook extension enables merchants to create beautiful shoppable lookbooks. The extension creates a dedicated lookbook landing page to beautifully display all the looks. Merchants can create lookbooks with certain products that look extremely classic. Merchants can add markers to the lookbook to indicate each item. The extension is suitable for the fashion, interior designing and furniture industry.

2. Feature List

- Create Separate Lookbook Landing Page
- Create Unlimited Lookbooks
- Offer Discount on Lookbook Purchase
- Offer Discount to Specific Customer Groups
- Display Lookbooks in Slider Widget on CMS Page
- Customize Add to Cart Button Text
- Add Custom Discount Message
- Customize Custom Message Background & Text Color
- Restrict By Store Views
- Set Lookbook Order

2.1 Create Separate Lookbook Landing Page

This extension creates a separate Lookbook landing page to display all the created lookbooks.

2.2 Create Unlimited Lookbooks

Merchants can create unlimited lookbooks to promote their products. All the lookbooks are displayed on a dedicated lookbook landing page.

2.3 Offer Discount on Lookbook Purchase

In order to motivate the customers, merchants can offer discounts on lookbook purchase. With this extension, merchants can configure two types of discounts.

- **Percentage:** Offer percentage discount based on the cart subtotal.
- **Fixed:** Offer fixed discount upon lookbook purchase

2.4 Offer Discount to Specific Customer Groups

This extension gives you the option to offer the discount to specific customer groups.

2.5 Display Lookbooks in Slider Widget on Any CMS Page

Store owners can display the lookbooks on any CMS page like homepage, about us, etc. For this, you'll have to create Lookbook widgets and display them on any CMS page. You can display an individual lookbook product widget or display multiple lookbooks in a slider widget on any CMS page.

2.6 Customize Add to Cart Button Text

Merchants can customize the 'Add to Cart' button text. Add custom text to the button according to your requirements.

2.7 Display Custom Discount Message

Merchants can configure custom discount message to inform the potential customers regarding the lookbook discount.

2.8 Customize Custom Message Background & Text Color

Merchants can customize the discount message background color, text color & marker color.

2.9 Restrict By Store Views

Merchants can restrict the lookbook by specific store views. The lookbooks will only be visible to the selected store views.

2.10 Set Lookbook Order

This extension gives you the option to set the lookbook order according to your requirement.

3. Setup the Extension

At the backend, go to **FME EXTENSIONS > Configurations**. Here you can find the extension configurations.

3.1 General Configurations

Now, expand the **General Configurations Tab** & set the following configurations:

- **Module Enable:** Enable/Disable the extension
- **Lookbook Label:** Set Lookbook label. This will be displayed on frontend menubar.

- **Add to Cart Button Label:** Customize “Add to Cart button” label
