Overview

Apply a cost based markup automatically in bulk using the "Cost + Markup" formula. Percentage Pricing is a Magento Cost Price extension that allows you to apply price markup/profit on thousands of products at once. You can add or subtract a fixed/percentage portion of configurable product price manually or automatically with the help of catalog price rules.

Percentage Pricing

Features

- ✓ Apply price markup or decrease price of thousands of products at once
- ✓ Ability to apply price markup manually
- ✓ Overrides Magento catalog price rules so that you can automate the whole process of applying markup
- ✓ Create multiple rules and prioritize their execution order. These rules can be applied on different products or just one set of products. Price will be shown after calculating markup on those products.
- ✓ Apply price markup for selected customer groups. Show different prices to wholesalers and retailers.
- ✓ Add description to rules
- ✓ Set conditions by using product price rules and configure the actions that will occur e.g. increase price or decrease price
- ✓ You can add or subtract the amount in fixed or percentage

Global Features

- ✓ Open Source
- ✓ Multi store support
- ✓ Easy Installation
- ✓ Responsive
