

FME EXTENSIONS

EXTENSION FOR MAGENTO 2

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of **Photo Gallery & Product Image Gallery** Extension for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

DISCLAIMER 42

USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

HOW TO CONFIGURE THE EXTENSION

At the back end, go to **FME EXTENSIONS > Configurations**. Here you can find the following settings:

GENERAL SETTINGS

- **Enable Module:** Option to Enable/Disable photo gallery module

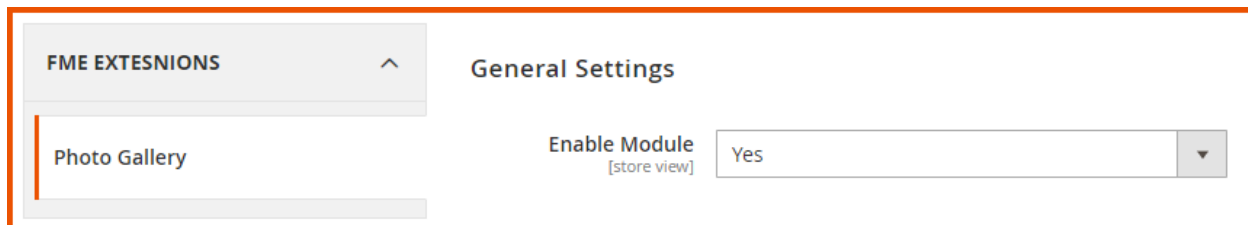

IMAGE SETTINGS ON UPLOAD

- **Thumb Width:** Set the gallery image thumbnail width
- **Thumb Height:** Set the gallery image thumbnail height
- **Keep Frame of Thumb:** Enable/Disable the frame of thumbnail in the gallery
- **Keep Aspect Ratio of Thumb:** Enable/Disable the aspect ratio of thumbnail in the gallery
- **Thumb Background Color If Keep Aspect Ratio (Yes):** Set the background color of the gallery image thumbnail. Default is set as White (#ffffff)

Image Settings On Upload

Thumb Background Color if Keep Aspect
Ratio (YES)
[store view]

PHOTO GALLERY MAIN PAGE SETTINGS

- **Page Title:** Enter the title of the photo gallery page
- **SEO URL Identifier** Enter the title for SEO URL Identifier
- **SEO URL Suffix** Enter the SEO URL Suffix for photo gallery main page **e.g. .html**
- **Meta Keywords:** Enter meta keywords for the photo gallery main page
- **Meta Description:** Enter the meta description for the photo gallery main page
- **Gallery Type:** Choose the type/theme of the gallery from the following:
 - **FME Gallery**
 - **3D Gallery**
 - **Mensory**
 - **Nano Gallery**
 - **Media Player Gallery**

Photogallery Main Page Settings

Page Title <small>[store view]</small>	<input type="text" value="Photogallery"/>
SEO Url Identifier <small>[store view]</small>	<input type="text" value="photogallery"/>
SEO Url Suffix <small>[store view]</small>	<input type="text" value=".html"/>
META Keywords <small>[store view¹]</small>	<input type="text" value="Meta Keywords"/>
META Description <small>[store view]</small>	<input type="text" value="Meta Keywords"/>
Gallery Type <small>[store view]</small>	<input type="text" value="FME Gallery"/> ▼

Note: User can place the gallery on:

- Main Landing Page
- Category Page
- Product Page
- Anywhere Through CMS Content

FME PHOTO GALLERY SETTINGS

- **Enable Thumb on Frontend:** Option to Enable/Disable the thumbs images on frontend
- **Images Per Page:** Enter the minimum number of images per FME photo gallery page (**Note:** Minimum Limit is 10)
- **Load Ajax:** Option to Load Ajax
 - **Manual**
 - **Auto**

(**Note:** If you load the Ajax manually, then the pagination button text field will appear)

- **Pagination Button Text:** Enter text for pagination button **e.g.** Load More
- **Enable Tabs:** Option to Enable/Disable the tabs
- **Enable Filter:** Option to Enable/Disable the filter if there are no tabs on the photo gallery page
- **Enable Pagination Without Filter:** If you disable the filter then you can Enable/Disable the pagination
- **Thumbs Layout:** Choose the layout of thumbs (to arrange the images of photo gallery)
 - **Final**
 - **Columns**
- **Enable Full-Width Gallery:** Option to Enable/Disable Full-Width gallery. By Enabling It, Gallery is **100%** responsive. So, it can be used on a full-screen page.
- **Grid Size:** Images can be vertically cropped to enhance the chance of being aligned on the bottom borders, which usually prevents the gallery from arranging in columns. So, a higher value could improve the overall layout, but it will crop images. Grid Size should be in the form of numbers **i.e.** 10,20,30,40,50 etc.

- **Disable Grid Size Below:** If you have small images at low screen resolutions, then you could want to disable image cropping to avoid even smaller images. Use the **Disable Grid Size Below** to avoid automatically. Set the Grid Size to **0** and avoid image cropping when the screen is under the resolution pointed by this parameter.

FME Photogallery Settings

Enable Thumb On Frontend <small>[store view]</small>	No	▼
Images Per Page <small>[store view]</small>	10	
Load Ajax <small>[store view]</small>	Manual	▼
