Getting Started!

Overview

Previous Next Magento plugin eliminates the frustration caused by page reloads when customers try to navigate to different products. Instead of going back and forth to select a different product they can navigate to all the products in a category while staying on the same page with the help of next and previous buttons. These buttons are fully customizable, change the images and text as you desire.

Features

- Easy to use controls: Next, previous and main category buttons are placed at very conveniently location which allows customer an easy approach for navigation
- Customizable controls: You can use custom images and text for these buttons. If you do not wish to use images, you can just select text. You can select first or second word from the text to appear on frontend.
- Multiple Sorting: Next and previous products can be sorted by ID, price and name in ascending and descending order.
- Eliminate Time delays: With the help of this extension, customer won't have to switch back and forth to category pages. They can navigate to different products staying on same page.
- Customer oriented: Attract more clients with this consumer friendly extension

After Installation

After successful installation login to your store admin panel and go to
FME Extensions > Previous Next

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with tabs like Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, FME_Extension, FME Extensions, Reports, and System. The 'FME Extensions' tab is active. Below the navigation bar, there's a message bar with a 'Latest Message' about Magento Community Edition 1.7.0.1. The main content area shows the 'Previous Next Enhanced' configuration page. A red arrow points from a cloud callout to the 'Previous Next' tab in the top navigation bar. The callout contains the text: 'After installation you can find all available options for this extension right here'. The configuration page has a left sidebar with 'Configuration' and 'FME EXTENSIONS' sections. The 'FME EXTENSIONS' section includes 'FME Tabs', 'Advance FAQ Management', 'Previous Next Enhanced', and 'M-AJAX'. The 'Previous Next Enhanced' section has a 'Main Setting' and a 'Sort The Collection / Truncate the name' section. The 'Main Setting' section has a dropdown for 'Enable / Disable the Extension' set to 'Enable'. The 'Sort The Collection / Truncate the name' section has three dropdowns: 'Sort The collection' set to 'By Price', 'Order The collection' set to 'Descending', and 'Split the name' set to 'Second'. There are also links for 'Previous Setting', 'Back Setting', and 'Next Setting' at the bottom.

Please read the user manual for more details on how to use this extension.
