Getting Started!

Overview

Highlight your products more powerfully with this brilliant new Magento tool from FME. Create rigorous product label rules and specify conditions with the help of Magento's default promotion rules' functionality overridden into this extension in order to apply labels to products. Based on these conditions your uploaded label images will be applied to products on product listing and detail page accordingly.

Features

Product Labels are much more beneficial than words or sentences in order to express what your product is about or to highlight it. Labels communicate directly to customers about the product hence they are able to distinguish any product based on brands, quality etc. According to the FDA (Food and Drug Administration) survey 54% of USA citizens read product labels before making a decision to purchase a product. FME's Product Labels Magento extension incorporates same marketing concepts.

- Set customized text messages and images as labels with the products
- Align your labels easily from the backend anywhere on product such as bottom, top, middle etc
- Allows you to create unlimited rules which will automatically set labels with products according to the conditions specified
- Display special price label against those products for which special price has been set by Magento
- You can assign priorities to rules in which case rules with greater priority value are processed first (0-greatest, 10-lowest)
- Multi-Store support
- Attract and retain your customers with this excellent customer oriented service
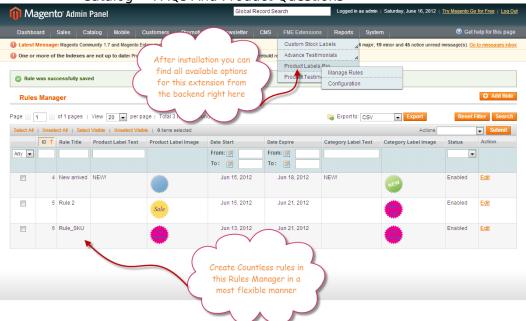

Installation

Step by Step

It is highly recommended to backup your server files and database before installing this module. No responsibility can be taken for any adverse effects it may cause. It is also recommended that you install it on a test server initially to carry out your own testing.

1. Extract the zip file FME_Product_Labels_Pro_Ext_1.0.zip to a local folder

2. Copy file /app/etc/modules/ FME_Productlabelspro.xml **TO** /app/etc/modules

3. Copy the full folder /app/code/local/FME/Productlabelspro **TO** /app/code/local/FME/

4. Copy file /app/design/adminhtml/default/default/layout/productlablespro.xml **TO** /app/design/adminthml/default/default/layout/

5. Copy file /app/design/frontend/default/default/layout/productlabelspro.xml **TO** /app/design/frontend/default/YOUR_THEME_FOLDER/layout/

6. Copy the full folder /app/design/frontend/default/default/template/productlabelspro **TO** /app/design/frontend/default/ YOUR_THEME_FOLDER /template/

7. Copy the full folder /skin/frontend/default/default/css/productlabelspro **TO** /skin/frontend/default/YOUR_THEME_FOLDER /css/

8. Delete cache from admin panel or delete that from file system /var/cache

9. Logout from the admin panel and login back to see under the FME Extensions Menu in top navigation.

After Installation

After successful installation login to your store admin panel and go to Catalog > FAQs And Product Questions

Please read the user manual for more details on how to use this extension.
