Getting Started!

Overview

"Every man can transform the world from one of monotony and drabness to one of excitement and adventure" by Irving Wallace. Excitement, thrill, pleasure and adventure encourage people to get out and find such places. Background Images Magento Extension creates the same thrill for online shoppers at your site. Make your site lively with the help of custom background images for any page such as category, product, home page or any other CMS page. All this happens automatically through the Magento promotional rules functionality overridden into this module. Each time customers visit your site they see it in a new look ...

Features

- All in one place to manage your background images. You don't have to go to product or category pages to configure anything.
- Create your desired image gallery to apply random background images on your site
- Define countless rules by using Magento's promotional rules functionality overridden in this module to automatically update background images product pages
- Create multiple rules and assign them with priorities.
- Define validity time period for rules. Rules will automatically be deactivated once the time period expires
- Extremely easy to select and apply image rules on products, categories and CMS pages
- Select your desired sorting mechanism such as by random, ascending or descending. This will define how images will change on your frontend
- Multi-Store support
- Separate category section to apply rules on category pages
- Attract and retain your customers with this excellent customer oriented service.

Installation

Step by Step

It is highly recommended to backup your server files and database before installing this module. No responsibility can be taken for any adverse effects it may cause. It is also recommended that you install it on a test server initially to carry out your own testing.
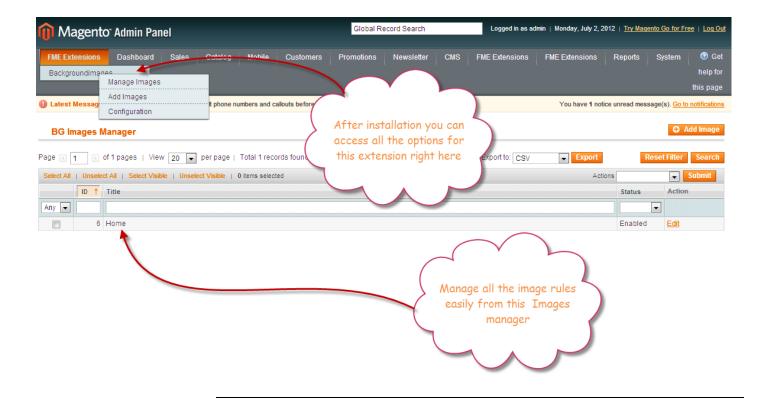

1. Extract the zip file FME_BackgroundImages_Ext_1.0.zip to a local folder

2. Copy file /app/etc/modules/ FME_Backgroundimages.xml to /app/etc/modules

3. Copy the full folder /app/code/local/FME/Backgroundimages to /app/code/local/FME/

4. Copy file /app/design/adminhtml/default/default/layout/backgroundimges.xml to /app/design/adminthml/default/default/layout/

5. Copy file /app/design/adminhtml/default/default/template/backgroundimges to /app/design/adminthml/default/default/template

6. Copy file /app/design/frontend/default/default/layout/backgroundimges.xml to /app/design/frontend/default/YOUR_THEME_FOLDER/layout/

7. Copy the full folder /app/design/frontend/default/default/template/backgroundimages to /app/design/frontend/default/ YOUR_THEME_FOLDER /template/

8. Copy the full folder /skin/frontend/default/default/css/productlabelspro to /skin/frontend/default/YOUR_THEME_FOLDER /css/

9. Create a new folder in /media/ by name "backgroundimages"

10. Logout from the admin panel and login back to see under the FME Extensions Menu in top navigation.

After Installation

After successful installation login to your store admin panel and go to FME Extensions > Background Images

Please read the user manual for more details on how to use this extension.
