1. About the Extension

The Magento 2 Minimum Order Amount For Customer Group extension by

FMEextensions allows store owners to set specific minimum order requirements for

different customer groups. The extension aims to segment pricing strategies for different

customer groups to increase profitability and customer loyalty.

2. Feature List

- Set minimum order thresholds for individual customer groups
- Choose between subtotal or grand total as the basis for the minimum order amount
- Include discounts, taxes, and shipping charges within the grand total calculation
- Display a message when the minimum requirement is not met

.

3. **Extension Configurations**

Login to your Magento 2 admin panel and navigate to **FME EXTENSIONS > Minimum Order Amount Configurations**. Here you can find the extension configurations.

3.1 Module Settings

- **Enable:** Select 'Yes' to enable the extension.
- **Set Minimum Order Amount Allowed Per Customer Group:** Set minimum order amount for individual customer groups.
- **Total:** Select 'Subtotal' if you want to calculate the order amount without additional charges or deductions. If you select 'grand total', the following 3 fields appear that allow you to include additional charges in the order amount calculation.
  - **Discount:**Select 'include discount' if you want to minus the discount amount from the order total.
  - **Tax:** Select 'include tax' if you want to add tax in the minimum order amount calculation.
  - **Shipping:** Select 'include shipping' if you want to add shipping charges in the minimum order amount calculation.
- **Message Alert for Customer:** Write a message you want to display if the minimum order amount requirement is not met.

Total [store view]	grand total	▼	☐ Use Website
Discount [store view]	include discount	▼	☐ Use Website
Tax [store view]	include tax	▼	☐ Use Website
Shipping [store view]	include shipping	▼	☐ Use Website
