FME EXTENSIONS

EXTENSION FOR MAGENTO 2

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of **Product Box Calculator** Extension for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

TABLE OF CONTENTS

USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

HOW TO CONFIGURE THE EXTENSION

At the back end, go to **FME Extensions > Configurations**. Here you will find the following settings:

GENERAL SETTINGS

- **Enable in Frontend:** Choose '**Yes**' or '**No**' to Enable or Disable the Extension

SET KEYWORD TITLE

- **Enter the Label on Which Rule Will Apply:** Mention the product-custom-option label that you want to use as a box calculator field for the products **e.g.** Area, Volume, Width or Height

SET LABELS ON PRODUCT PAGE

- **Enter the Label for Boxes:** Enter a title/label for the box

- **Enter the Label for Unit:** Enter a title/label for the unit

- **Enter the Label for Base Price:** Enter a title/label for the base price

Set Labels On Product Page

Enter the label for boxes [store view]	Pallets
Enter the label for unit [store view]	Square meter
Enter the label for base price [store view]	Base Price

HOW TO ADD A PRODUCT

At the backend, go to **CATALOG > Products.** Here you will find all the store products in a grid. You can **Edit** any product or click on the **Add Product** button to proceed.

Here you will have to add the product information. The price is set as "**$2.99**" which will be the base price of the product.

Now scroll down the page and go to **Customizable Options**. Here you can add custom options (let customers choose the product variations they want) and name it according to your requirements. We have added the following options:

After setting product dimensions, scroll down and click on the **Box Calculator** option. Here you can set the dimensions and unit of the box as per your requirements.

- **Default Size of Box:** Enter the default size of the box **e.g.** 12

- **Select Unit of Box:** Choose the unit of the box. This is the input unit of the measurement.

  - **Square Centi-Meter**

  - **Square Foot**

  - **Square Meter**

- **Enter Minimum Required Entry:** Enter a value greater than **0** or left **blank** if you don't want to set the minimum quantity.

Frontend View – Allow Customers To Enter Required Measurement
