PRODUCT VIDEOS
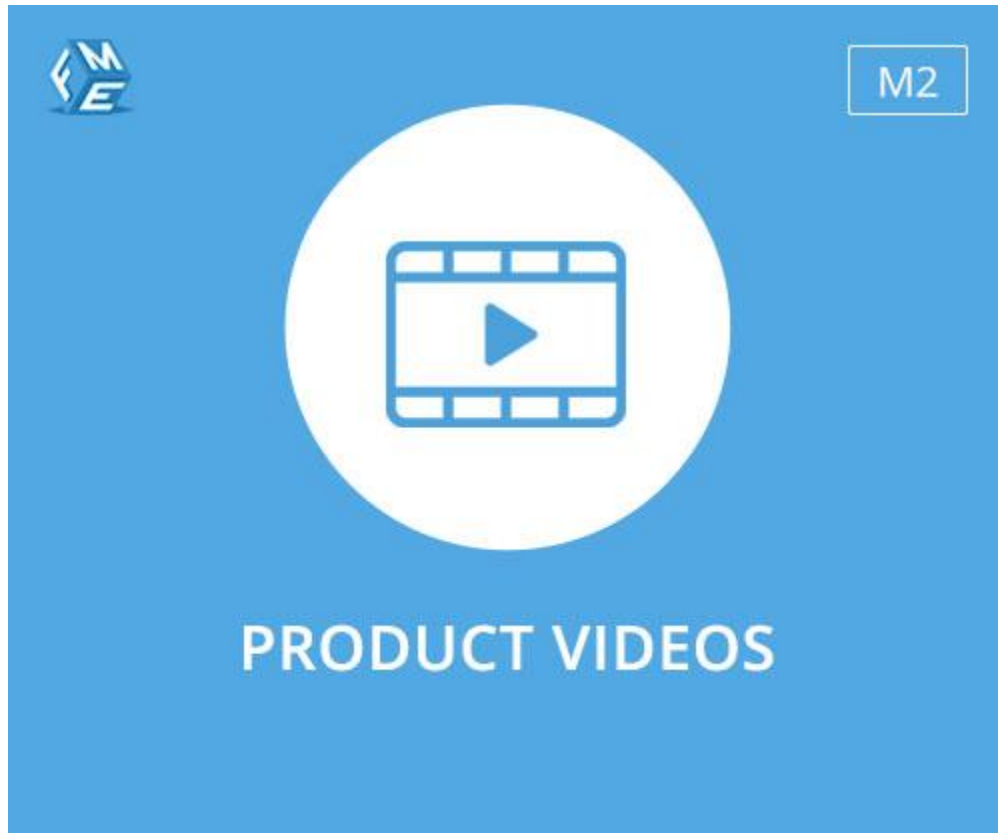

EXTENSION FOR MAGENTO 2

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users -managers, supervisors, and others of Product Videos Extension for Magento 2. A step by step instruction has been added to this document to help users to install the extension on Magento 2.

This extension will only work on Magento 2. As a safe practice always backup your files and database before installing any extension on Magento. If you are looking for someone to install the extension, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the extension to its full capacity. If you still have questions, feel free to contact us on our website.

TABLE OF CONTENTS

USER GUIDE

After installation of the extension, make sure the setup is upgraded and static-contents are deployed. Login to the admin panel and flush your Magento cache storage.

HOW TO ASSIGN A VIDEO TO ANY PRODUCT

At the back end, go to FME Extensions > Product Videos. Here you will find a grid of all product videos. You can Edit any video or click on the Add New File button to continue.

Here you will have to provide the following information:

PRODUCT VIDEO INFORMATION

- Enable: Option to Enable/Disable the product video

- Video Title: Option to set the title of the product video

- Choose Video Type: Option to upload the video from:

  o Media File

  o URL

- Video File: Upload the video file. Supported Format FLV, MP4 (Note: Your Server's PHP maximum upload size must be greater than file size)

- Media Thumb: Option to upload a JPEG or PNG image for the video file thumbnail

- Store View: Option to choose the store views on which you want to enable the video

- Customer Groups: Choose the customer groups on which you want to enable the video

- Content: Option to provide a short description of the video
